Education

Bachelor of Engineering, *Army Institute of Technology*
Computer Engineering
CGPA-8.5

2020 – 2024
Pune, India

Skills

Languages

C++, JavaScript, Java, Python, SQL

Frontend Technologies

HTML, CSS, Tailwind, GSAP, React

Tools

Git, GitHub, VSCode, Excel

CS Fundamental

DSA, OOP, DBMS, OS, CNS

Organizations

Datacurve.ai, remote, *Algorithmic Problem Reviewer for LLM Training* [🔗](#)

08/2024 – 11/2024

I created and reviewed complex DSA problems and solutions, which were used to train a Large Language Model (LLM) in solving advanced algorithmic challenges. Additionally, I evaluated problems on the platform to ensure quality and clarity.

Projects

Contact Manager, *C++* [🔗](#)

- System Design of Phonebook purely written in C++ which can take upto 1 million entries.
- Provides inserting, Searching and Prefix Searching functionality.
- Optimize memory usage while providing efficient insertion and search capabilities.
- Implement a trie data structure for prefix searching and to search contacts in $O(L)$ time complexity, where L is the length of the trie.
- Use a one-dimensional vector data structure to store contacts and maintain links between names and their corresponding contact information through indexes.

XperienceWeb, *HTML, CSS, JS, GSAP* [🔗](#)

- Website that provides distinctive web and graphic design experience.
- Implemented responsive design principles for optimal user experience across devices.
- Integrated innovative features to enhance the overall visual appeal and functionality.

DineDash, *HTML, TAILWIND, JS, REACT.JS* [🔗](#)

- Developed a responsive food ordering website using React, ensuring a smooth user experience across desktop and mobile devices.
- Implemented dynamic restaurant listing using live API to fetch and display real-time restaurant data, enhancing data accuracy and user engagement.
- Created a custom shimmer loading effect for smooth content rendering, improving the user interface by reducing perceived loading times.
- Designed interactive UI elements, such as search, filters and restaurant detail pages, providing a user-friendly interface for ordering food.

Positions of Responsibility

Joint Secretary, *National Service Scheme Club*

11/2021 – 10/2022

- Worked with NSS club to Organized a Cloth Donation Drive.
- Worked with NSS club to Organized a River Cleaning Drive to Clean Gurnam Lake

Pune, India

Organizing Member, *Innerv National Hackathon*

11/2020 – 02/2021

- Hackathon organized by Open Source Software Club of AIT, Pune.
- Made sure event was conducted efficiently and listened to feedback.
- Understood time management and improved my communication skills.

Pune, India

Extra-Curricular Activities and Achievements

- Solved more than 500+ problems in different coding and problem-solving platforms (Geeks for Geeks, Leetcode, Hackerrank, CodeStudio).
- 5 Star in Problem solving and SQL on Hacker Rank.
- Played Volleyball in Sports Aakriti.
